

# Manufacturing Skills Australia is giving away **\$80,000!**

We are seeking applications from around Australia with a theme of **Innovation in manufacturing**.

If you are working at any level in manufacturing and you are passionate about innovation, we want to help you achieve your goals.

We are encouraging people that work or study in sectors and occupations associated with [manufacturing](#).

Applicants can apply for between \$1,000 and \$10,000 to **develop their skills and knowledge** through research, education and/or training. Application will be accepted between 1 July 2021 and 31 August 2021.

Send us a short (60 second) video and a few short paragraphs explaining what this opportunity for a support payment would mean **for you, your career, your industry**.

## How does it work?

### Step 1: Your Proposal

Do you have a vision for your career, the future of your industry? Let's hear it!

Share your vision and enthusiasm in a few short paragraphs (give us some background) about what you want to do and why. Short, sweet and simple. This is your Proposal. The most inspiring proposals get invited to submit a full application with supporting documents to go into the second and final round. There are criteria that your application needs to meet, [click here to read more](#).

### Step 2: Your Application

Your vision has impressed. You are being invited to submit your supporting documents and any additional information if needed. Our selection panel will assess your proposal and select the most inspiring ideas with the greatest potential impact for both the candidate and their industry.

### Step 3: Your Success!

If you are among the selected applicants MSA will offer you a scholarship. You will need to accept this offer and all conditions in writing.

### Step 4: Your Planning

You now have the green light to turn your vision into the scholarship experience of a lifetime. In this phase, you can turn your idea into a detailed education/training plan. MSA can assist with this and can help connect you with industry if required.

### Step 5: Your Future Development

It's time to pursue your dreams, connect with industry, explore, and learn how to improve your industry.

To apply, please submit your proposal to Leon Drury, Executive Officer, Manufacturing Skills Australia
